Present...**

Dr. Robert K. Greenleaf

At the new University Hall at Indiana State University
March 4th, 2010 from 8:00 – 3:30

“Learning, the Brain & Essentials for Sustained Progress”

- **Creating Memory**
- **Enhancing Recall**
- **Formative Assessment that Links Curriculum & Instruction**

This workshop specifically targets the question: "How do I frame existing lessons so that all learners become engaged in learning?" The goals are to engage all learners simultaneously; to cause learners to do the work (processing) of learning; and to create multiple connections for recall. One focus will be on the conscious mind as it works in image & emotion. Research on nonlinguistic representations is reported to generate a 26% increase in student performance outcomes. What strategies can be used that engage the mind? Are there strategies for engaging the five natural learning systems? Can we merge the research on effective instructional strategies with the neurosciences and generate "Minds-On" learning? Are there some learners (or types of) that would benefit from bi-modal/dual coding approaches to processing and interpreting information? Let's try several ways to make this happen.

We will also look at the Student Centered Accountability Process as an instructional approach that links student outcomes with teacher practices. The SCA Process is designed to identify student learning targets/standards, determine related student learning needs, and produce timely, useful, very specific feedback for educators and students. Given feedback specific to identified criteria, teachers have the opportunity to adjust instruction along the way, rather than after optimal learning moments have passed.

Robert Greenleaf, President of Greenleaf Learning, a human resource development company, specializes in educational strategies for understanding behaviors, building esteem and achievement, and brain-based learning. Bob was formerly a professional development specialist at the Education Alliance at Brown University. Having taught in all grades K-12, he has 20 years experience in public education from teacher to superintendent and was a member of the National Speakers Association and Toastmasters International.

To register please fill out this form and fax to 812-237-4449

Registration (per individual) which includes materials, breakfast and snacks, is \$100.00 for NCA member schools and \$150.00 for non-member schools. Lunch is on your own. You can also earn ISU credit as well as CRUs.
